### Inventory for FOIA Request 1998-0099-F

## Records on the Persian Gulf Conflict

#### **Extent**

807 folders, approximately 40,800 pages

#### **Access**

Collection is open to all researchers. Access to Bush Presidential Records, Bush Vice Presidential Records, and Quayle Vice Presidential Records is governed by the Freedom of Information Act (FOIA)(5 USC 552 as amended) and the Presidential Records Act (PRA)(44 USC 22) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George Bush's presidency are housed at the George Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processed By**

Staff Archivists, March–September 1998. Previously restricted materials are added as they are released.

#### **Scope and Content**

The materials in FOIA 1998-0099-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 1998-0099-F contains materials related to the diplomatic and military response by the United States (as part of a multi-national force) to the Iraqi invasion of Kuwait on August 2, 1990. The first part of the intervention, Operation Desert Shield, took place between September 1990 and January 1991. During this operation the US and a coalition of other nations committed forces to protect Saudi Arabia from

further Iraqi aggression. The military campaign to drive Iraq out of Kuwait, Operation Desert Storm, commenced on January 16, 1991, immediately following the expiration of a UN Security Council Resolution demanding the unconditional withdrawal of Iraqi forces.

White House Office of Records Management (WHORM) Subject File categories contain correspondence, memoranda, news clippings, and brochures from the general public, Congress, and the Bush administration. WHORM Subject File categories CO072 and CO083 contain documents concerning Iraq and Kuwait, respectively. Most of the material in these categories concerns Iraq's invasion of Kuwait. Another large segment related to this subject is WHORM Subject File National Defense ND016.

The Staff and Office Files contain correspondence, memoranda, and publications maintained by individual staff members and offices. A significant amount of material responsive to this FOIA is contained in the files of the National Security Council (NSC). Although these files are listed, it should be noted that most of these documents are security classified and have been closed under the restrictions of the Presidential Records Act and the Freedom of Information Act. These documents deal with topics such as: the inspection and elimination of Iraq's weapons of mass destruction; diplomatic efforts to create the Gulf Coalition; US policy towards Iraq prior to the conflict; US efforts to assist Kurdish refugees; and military operations in the Persian Gulf Theatre.

### **System of Arrangement**

Records that are responsive to this FOIA request were found in three collection areas—Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, Staff and Office Files are processed at the folder level, that is individual documents are not selected and removed from a folder for processing. WHORM Subject and WHORM Alphabetical Files are processed at the document level. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area. Please note that the majority of incidentally processed material in this FOIA request relates to post-war events, such as: Desert Storm Homecoming celebrations, the Kurdish and refugee situations, the rebuilding of Kuwait, foreign nations financial contributions, and reports to Congress.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.

Please note that a single asterisk "\*" indicates that the category is entirely processed and open. A detailed description of the category can be found in the finding aid for the office or category.

The following is a list of documents and folders processed in response to FOIA 1998-0099-F.
